Dr. Rana Odeima

Head of University Requirements

Arab International University

Date: September 14, 2025

Dear Hiring Manager:

I am writing this recommendation letter, with pleasure, upon the request of engineer, Ms. Rawan Abu Sitteh.

I have known Rawan for three years as a computer science instructor at our university, The Arab International University (AIU), under my supervision as the Head of University Requirements.

Rawan teaches usage skills, targeting non-specialist students. The course she teaches is titled "Computer Skills", and it is an obligatory course that has three credit hours, and all students have to accomplish the course before they graduate.

Based on my observation, Rawan has shown commitment and special teaching skills. She is loved and appreciated by her students and by the administrative staff as well.

In addition to her capabilities and credentials, Rawan is cooperative and helpful, with a great team spirit. She never hesitates to provide help even if the task is not hers. Moreover, she is an ambitious engineer who constantly seeks to acquire new skills.

I strongly recommend Rawan for any position that is in the sphere of computer science, programming, or AI related programs. I am confident that she is an asset wherever she is employed.

Sincerely yours,

Dr. Rana Odeima
