

Rawan Omar Abu Sittah

Full Stack Developer | Software Engineer | Computer Engineer

rawanabusittah@gmail.com | +963995858413 | Damascus, Syria | LinkedIn | GitHub

SUMMARY

Full Stack Developer and Computer Engineering professional with 4+ years of experience building responsive and accessible web applications using JavaScript, React, PHP, and Python. University lecturer with experience teaching 600+ students. Currently pursuing an M.Sc. in Computer Engineering and Networks and an Al-Khwarizmi Fellow (July–September 2026).

TECHNICAL SKILLS

Programming Languages

Python, PHP, JavaScript, CSS3

Back-End Development

PHP, RESTful APIs, Database Integration

Tools

Git, Linux, OpenCV, jsPDF

Front-End Development

React, Responsive Design, UI Development

Databases

SQL, MySQL, Database Design

Concepts

OOP, Web Accessibility (WCAG), AI Integration, Computer Vision, Network Protocols, Agile

PROFESSIONAL EXPERIENCE

Software Developer — Arab International University (AIU)

04/2026 – 08/2026 | Syria

- Developed and maintained university-wide web portals and internal software systems serving hundreds of students and staff.
- Collaborated with cross-functional teams to gather requirements and deliver scalable, maintainable solutions within Agile sprints.
- Developed web applications using PHP, JavaScript, HTML, CSS, and SQL; designed responsive interfaces and optimized application performance and database queries.

University Lecturer — Arab International University (AIU)

2024 – 2026 | Syria

- Taught Computer Skills to 600+ students across five semesters.
- Designed and produced 25 practical educational videos with step-by-step demonstrations, contributing to increasing the course pass rate from 78% to 91%.
- Developed semester plans and practical, skills-based examinations.

University Lecturer — Damascus University, Department of Computer Engineering and Automation

2023 – 2025 | Syria

- Instructed five laboratory courses covering Linux, Artificial Intelligence (Python & Prolog), Network Programming, Computer Vision (OpenCV), and SQL Database Design.
- Guided students through network protocols, image-processing pipelines, and database schemas; produced laboratory documentation and assessment materials.

Front-End Developer — Freelance / Remote

2020 – 2023

- Delivered 12 front-end projects for restaurant, hotel, and office clients using HTML5, CSS3, JavaScript, and React.
- Implemented lazy loading, image optimization, and code splitting, improving Lighthouse performance by approximately 40%.
- Built responsive layouts using Flexbox, Grid, and media queries and maintained modular React components.

Article Proofreader & Technical Writer — Freelance / Remote

2018 – 2023

- Authored and proofread 200+ technical and cultural articles and translated technical content into accessible Arabic and English.

Audio Transcriptionist — Freelance / Remote

2018 – 2021

- Transcribed 150+ hours of audio content with 99% accuracy while meeting strict deadlines.

PROJECTS

Plan Your Day

06/2026 – 08/2026

Arabic RTL planner with 20 customizable templates, drag-and-drop task management, progress tracking, and PDF export; built with HTML, CSS, and JavaScript.

CV Master

01/2026 – 04/2026

Browser-based CV builder with 20+ templates, real-time preview, PDF export, dark/light mode, and color themes; built with pure JavaScript and CSS with a bundle size under 200 KB.

Credit Distribution & Invoicing System

04/2026 – 07/2026

Web platform for team expense tracking and balance management with role-based access control and automated PDF invoice generation using PHP, MySQL, HTML, CSS, and JavaScript.

Banybal AI-Powered Accessible Library

2022 – 2023

Digital library hosting 1,000+ books with AI-powered summarization, voice-command control for visually impaired users, and head-movement control for users with limb disabilities.

EDUCATION

M.Sc. in Computer Engineering and Networks, Damascus University

2023 – Present | Syria

B.Sc. in Computer Engineering and Automation, Damascus University

2018 – 2023 | Syria

CERTIFICATES

Supervised Machine Learning: Regression and Classification  DeepLearning. Ai	AI for HR  AI Business School Introduction to Front-End Development Meta	Mathematics for Machine Learning: Linear Algebra  Imperial College London	HTML, CSS, and JavaScript for Web Developers  Johns Hopkins University
Programming for Everybody (Getting Started with Python)  University of Michigan			

LANGUAGES

Arabic — Native/Bilingual

English — Fluent

FELLOWSHIP

- Al-Khwarizmi Fellowship — Fellow**

07/2026
- Completed specialized training tracks in Artificial Intelligence and Machine Learning.
 - Participated in one-on-one interviews and expert panel discussions with AI/ML practitioners, gaining insight into real-world industry requirements.
 - Completed an intensive 8-day in-person bootcamp featuring technical lectures, workshops, and collaborative problem-solving activities.
